Product Specification

Product Name: Stainless steel mess stencil for sceen printing SEN-ST-SSM-01

Stencils are used for screen printing processes and useful in developing printed circuit boards (PCB), surface mount technology (SMT) and conducting tracks for sensors or other applications. stencils are used to print the conductor tracks. The company enable cost-efficient production of aluminum stencils. SEN-ST-SSM-01 is a 375 stainless steel mess 375 aluminum stencil. The company offer cost effective designing of steel mess stencil with complete solution. Contact the customer support at sensors_tech@yahoo.com for further information.
